

# NANOTEX® ALL CONDITIONS

## Give your fabric protection against the elements with Nanotex All Conditions:

Nanotex All Conditions uses repellency technology that works at the molecular level of your fabrics fibers using nano-scale “whiskers” to change the surface tension of fabrics **providing resistance against the elements.**

PROPERTIES:	FIBER TYPES:	APPLICATIONS:
Protection against the elements	Cotton	Apparel
Repels rain, sleet and snow	Rayon	Casual lifestyle
Provides long-lasting protection	Polyester	Dress
Retains fabric softness	Nylon	Outerwear
Breathable	Acrylic	Sportswear
PFAS free	Polypropylene	
	Wool	
	Silk	

TEST METHODS:	COMPATIBLE WITH:	CONTACT:
AATCC TM 22	 WRINKLE DEFENSE	services.technical@nano-tex.com
	 FRESH PROTECT	1.800.CRYPTON
	 UV BLOCK	nanotex.com

### We pioneered nanotechnology enhanced textiles.

Nanotex is the original and trusted source that transforms your fabric to better withstand the effects of nature and enhance your life.
