

NANOTEX® COOLEST COMFORT

Keep your fabric cool when life heats up with Nanotex Coolest Comfort:

Nanotex Coolest Comfort uses hydrophilic net architecture that works at the molecular level of your fabrics fibers to **quickly disperse moisture throughout the fabric** resulting in advanced moisture wicking to allow fabric to breathe naturally.

PROPERTIES:	FIBER TYPES:	APPLICATIONS:
Pulls moisture away from skin	Cotton	Activewear
Moisture evaporates faster	Rayon	Apparel
Durable up to 30+ home launderings	Polyester	Bedding
