

NANOTEX® SPEED DRY

Performance fabrics perform better with Nanotex Speed Dry:

Nanotex Speed Dry uses technology that works at the molecular level of your fabric fibers using nano-scale “whiskers” to change the surface tension of fabrics to **repel surface water for faster drying to maximize comfort and durability.**

PROPERTIES:	FIBER TYPES:	APPLICATIONS:
Reduces water absorption	Nylon	Activewear
Dries quickly	Polyester	Apparel
Maximizes comfort	Wool	Swimwear
Retains fabric softness		
Breathable		
PFAS free		

TEST METHODS:	COMPATIBLE WITH:	CONTACT:
Nanotex In-House Drying Time Test TM 009	 FRESH PROTECT	services.technical@nano-tex.com
	 UV BLOCK	1.800.CRYPTON
		nanotex.com

We pioneered nanotechnology enhanced textiles.

Nanotex is the original and trusted source that transforms your fabric to better withstand the effects of nature and enhance your life.
