

NANOTEX® WICK+BLOCK®

Give fabric the strength of nature with Nanotex Wick+Block:

Nanotex Wick+Block uses hydrophilic net architecture that works at the molecular level of your fabrics fibers to quickly disperse moisture resulting in **advanced moisture wicking allowing fabric to breathe naturally**. When activated with water and detergent, it can **dislodge tough, stubborn, ground-in stains**.

PROPERTIES:	FIBER TYPES:	APPLICATIONS:
Eco-conscious moisture management and stain resistance	Nylon	Activewear
Rapidly wicks sweat across fabric to speed up drying	Polyester	Apparel
Stain resistance activates in laundering cycle	Wool	Bedding
Breathable		Outerwear
Formaldehyde free		Uniforms
PFAS free		

TEST METHODS:	COMPATIBLE WITH:	CONTACT:
AATCC TM 130	 COOLEST COMFORT	services.technical@nano-tex.com
AATCC TM 197	 DRY INSIDE	1.800.CRYPTON
	 RELEASE+COOLEST COMFORT	nanotex.com
	 FRESH PROTECT	

We pioneered nanotechnology enhanced textiles.

Nanotex is the original and trusted source that transforms your fabric to better withstand the effects of nature and enhance your life.
